Membership

What is Health e360?

The Health e360 membership offers preventative care information and provides support when members or family members become ill. Members can easily share medical history with a doctor, locate a pharmacy and improve their health.

Member Benefits

✔ Personal Health Record

Members can store x-rays, prescription notes, and test results. Members can access records from a mobile device or computer and securely invite others to view files.

✔ Daily Health Videos & News

View a new daily health video, ranging from topics from new recipes, exercise techniques, mental health issues and healthy relationships.

✔ Health Encyclopedia

Members can read about health topics so that they can be better informed to the right questions to ask at their next doctor's visit.

✔ Symptom Checker

Members can stop searching on the unfiltered web for health information. Members can search by topic, keyword, or alphabetically in our comprehensive health encyclopedia.

✔ Wellness Workshops

Members can opt into online wellness classes that share information about health topics that they choose. Employers can let members earn points that can be applied towards benefits like paid time off.

✔ FSA Store

Members can access to FSA pre-approved items for purchase. Eliminate the need for members to go through the effort of collecting receipts and waiting for reimbursements.

✔ Health Assessment Calculator

Members can input health information and get tips on how to improve oneself.

✔ Discount Card

Members save on prescription drugs, dental, vision, and hearing, services and supplies.

✔ Fitness Tracker Integration

Members can connect a smart device to log and track steps, heart rate, or anything else a tracker can measure!

✔ Provider Search

Search for healthcare providers.

✔ Provider Network

Look up the provider network that your employer sponsor plan offers.

Add-On Apps

Employers or employees are eligible to add apps for a small fee.

✔ Telemedicine

Skip driving to the doctor's office. Use telemedicine to meet with a doctor through a phone call.

✔ Patient Advocacy

A personal advocate helps you navigate the complexities of medical care by explaining your claim details to you, assisting with billing errors and negotiating payment plans with providers.

✔ Health Coaching

Get access to a personal health coach, who can advise you with exercise routines, healthy eating choices or quitting smoking.
